

Student quick guide - Enroll, track progress, and get your certificate

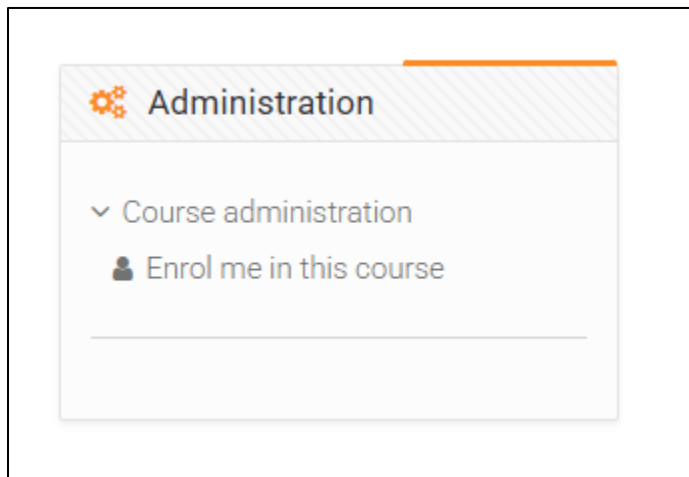

You can watch lessons as a guest, but to save progress and receive a certificate you must sign in and enroll in the course. Follow the steps below.

1. Sign in or create an account

1. Click **Sign in** and enter your username/email and password.
2. If you don't have an account, click **Register**, fill in the signup form, then check your email and complete the verification link. (Please note that you should use the same email address when registering to every DP education related website.)

2. Enroll on the course

1. Open the course page after you sign in.
2. Look at the right-hand navigation panel and find the **Administration** section.

3. Click **Enroll me on this course**.
4. On the next screen click **Enroll now**. Then the page scrolls to another enroll block, click **Enroll me** there to confirm.
5. Once enrolled, you can start the lessons.

3. Start learning

Open the lesson or activity you want and follow the content.

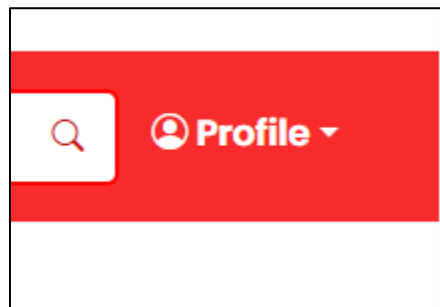

4. Mark activities as done

After you complete a video or activity, click **Mark as done** for that item. This option becomes available only after you're enrolled.

5. Download your certificate

When every required activity shows as done, your certificate will appear on the certificate page. (To download your certificate, please log in to the main website at dpeducation.lk. Once logged in, you will be able to access and download your certificate.)

Troubleshooting

If you can't sign in, can't enroll, don't see the **Mark as done** button, or your certificate doesn't appear - contact the course administrator.
